

SUPPLIES: LAYERS OF LIGHT

I've organized the supply list so that you can decide which projects you'd like to do and get the supplies you need. Any projects that have special supplies beyond the paper, knife, and cutting mat, I've indicated a special supply list. Some things are therefore listed more than once, such as Yupo paper or PVA glue. You'll definitely need drawing paper, a knife and blades, but everything beyond that depends on which projects you decide to take on. The basic items you'll definitely need have an asterisk.
